

Your Cresca Card — Quick Guide

Yours to keep. Activate it once, update it anytime, share it with a tap.

Scan for the full guide, with animations

1 Activate your card — once, about a minute. No app needed.

1 Tap your card

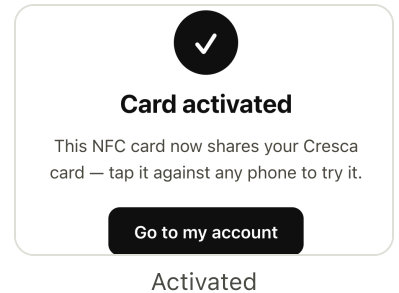

Hold it to the back of your phone, near the top, then open the link.

2 Set up your card

Sign in, then add your name. Title and organization are optional.

3 Done — “Card activated”

Every tap now opens your page.

2 Update your card — it always shows your latest published version

Tap your own card →

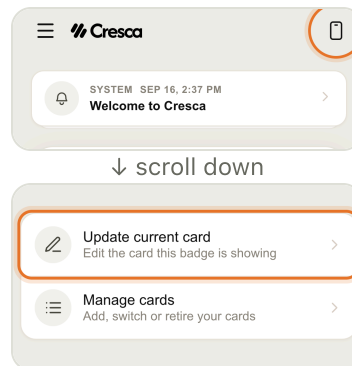

Update card → edit → Done

Or tap  at the top right and scroll down:

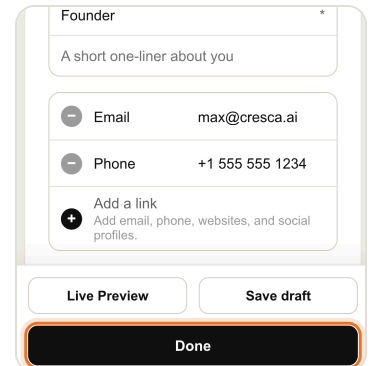

Update current card / Manage cards.

Photo, headline, links — **Add a link** has them all.

Press Done. Until then it's only a draft. After Done, every tap shows the new version.

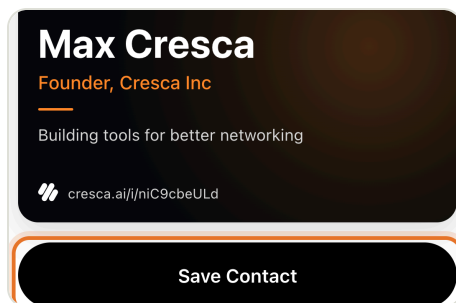

Update current card

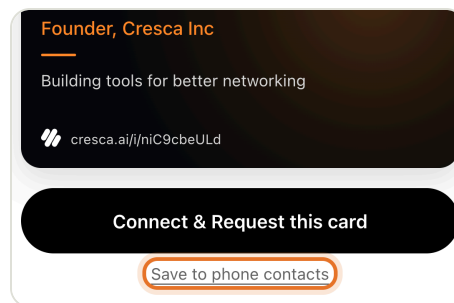

Press Done

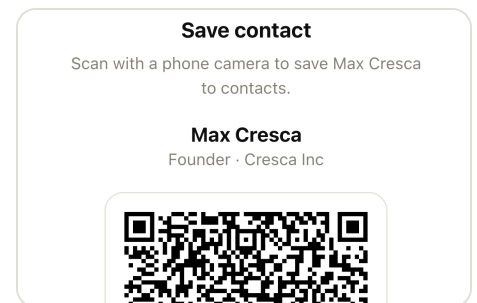

3 Share with your card — three ways, plus an offline trick

Tap it — not signed in, they tap **Save Contact**

Signed in — save is this line

No signal? The **Offline QR code** is your contact card — it saves offline

Apple Wallet (iPhone)

Add your badge; show it, they scan.

Let them scan

The QR on your badge home opens the same page.

Tapping is one-way. Their phone reads one link from your card — the card reads nothing from their phone. It works like scanning a printed QR code.

Get the app

Optional — your card works on its own. The app is where you scan, save and keep everyone you meet.
